

WELCOME TO THE WONDERFUL WORLD OF DANCE!

We hope your child will accomplish the following things through her/his dancing:

1. Develop a sense of rhythm and timing, which should be an asset to your child in sports, music, and any other activities they may become involved in.
2. Develop a mental ability to “pick up” fast and retain knowledge.
3. Become self-confident and poised in any endeavor they may take up.
4. Develop an appreciation and feeling for music and musical presentations.
5. Learn to work with people, both children and adults.

Dance and acrobatics are forms of physical education. Not every student thinks in terms of being a professional dancer. Dancing and acrobatics have great values of mental and physical discipline, coordination, mental alertness, artistic awareness, and a sense of responsibility. There is not a young person who would not benefit from the study of dance. Dancing is a form of education, like school, and your child must be encouraged to finish what they started so they can become proud of their accomplishments.

STUDIO POLICIES

1. Punctuality: Please be prompt to class. The discipline and courtesy of dance class required punctuality. The late student also misses class warm-up, which is very important. If your child will be late or cannot attend class for any reason, please call and let us know. Also, you need to ask the teacher what time and day to make up the class missed.
2. Children must wear proper dancewear to lessons. No bodysuits or panties. Please do not wear dance shoes as street shoes; this shortens the wear of the shoes and damages studio floor. **Please write child's name in shoes and dance wear.** No jewelry is allowed since it constitutes a hazard to students and teachers. Hair must be pulled back away from the face for all classes!
3. Parents pick your children up from the classroom your child has taken lessons in as the students are instructed that they are NOT ALLOWED to leave the studio without parents. This is for their protection. No exceptions!

4. Dance-wear needed
